FINAL ACTION

Applicant's amendment of 11-07-06 has been fully considered. While the amendment has overcome the previous rejections of 112/1st and 2nd paragraphs, it has added a new proviso which has no support in the specification, and thus, constitutes new matter.

Claims 1-40, 42-45, 47, 68, 73-87 and 95-105 are cancelled.

Claims 88-94 are withdrawn.

Claims 41, 46, 48-67 and 69-72 are pending.

Claim Rejections - 35 USC § 112, First Paragraph

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. **New Matter:** Claims 54, 66 and 67 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 54, 66 and 67 recite the proviso of "provided that B and C are not both N" which does not have support in the specification, and thus, constitutes new matter.

2. **Non-elected Subject Matter:** This application contains claims 88-94 drawn to an invention nonelected with traverse in Paper No. 1-12-06. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claims 88-94 are drawn to the non-elected subject matter, and are currently held withdrawn. It is recognized that these are method claims which could be rejoined with the allowable subject matter. However, applicant is reminded that upon rejoining, said claims **will be fully examined for patentability in accordance with 37 CFR 1.104**. Thus, to be allowable, **the rejoined claims must meet all criteria for patentability including the requirements of 35 U.S.C. 101, 102, 103, and 112.**

Allowable Subject Matter

3. Claims 41, 46, 48-53, 55-65 and 69-72 are allowable since the prior art of record does not teach or fairly suggested a quinazoline compound having rings at the 4- and 7- positions and a substituent at the 2-position.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 1624

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
